Sentinals Across Time is a work of fiction penned by author Helen Garraway in the epic fantasy, action, and adventure subgenres, and it forms the fourth novel in the

Sentinal Series. The work is best suited to the general adult reading audience. We find ourselves immersed in the vibrant, ancient world of Remargaren, a realm saturated with magic and filled with high-fantasy adventures. Jerrol, torn between duty and family, becomes stranded across land and time due to a conspiracy involving Lady Leyandrii and the Oath, threatening the Birtolian Empire. As he navigates the unfamiliar landscapes and cultures, Jerrol is faced with the challenge of preventing the impending devastation of the gentle Birtolian people.

Author Helen Garraway has crafted a captivating fantasy experience, immersing me in a richly detailed world filled with intricate characters and a finely woven tapestry of magic and lore. Garraway's storytelling is tender and emotive in all the right places, allowing the reader to empathize with Jerrol's predicament and root for the preservation of the Birtolian Empire. I was impressed by the different angles of culture, lore, politics, and social structures, which allowed Jerrol to tackle themes like duty, sacrifice, and the consequences of wielding magic, creating a compelling and immersive read. The pacing was also well crafted to intersperse these explorations with lots of actions and interesting twists, which leaves plenty of space for these poignant moments to shine but keeps us captivated for the next big action shift. Overall, for an intricate and imaginative novel that keeps the reader engaged from start to finish, I would highly recommend Sentinals Across Time and the series in general to fantasy readers everywhere."
